

APEL™

High Performance Optical Polymer

Superior transparency.
Exceptional heat resistance.
Design flexibility.

APEL™, COC is an advanced amorphous polyolefin resin offering excellent optical clarity, low birefringence, and high heat resistance, making it ideal for precision optical and medical applications.

Applications

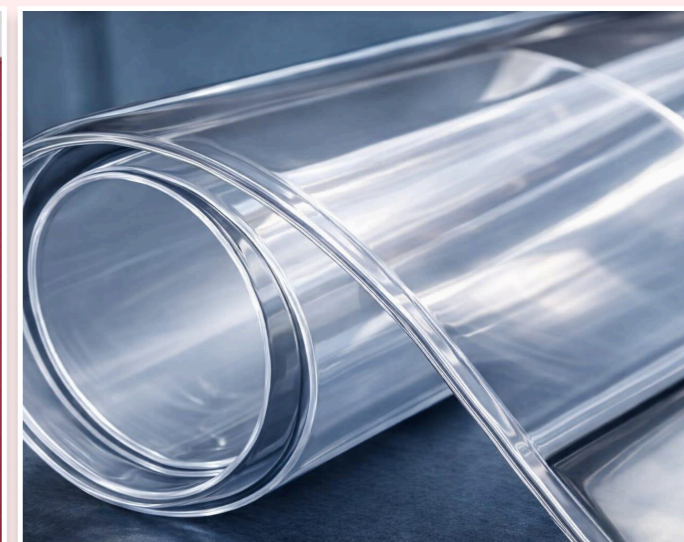

Prefilled Syringe

Heads-up Display

Mobile Lens

Optical Films

Certifications

DMF: Registration No. 25995
Quality Assured Globally.

RoHS Compliant
Eco Safe Material.

REACH Compliant
Chemicals Safe Usage.

FDA Approved
Safe Product Standards.
